DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 31-37 and 44-49, drawn to a specimen container.

Group II, claim(s) 38-42, drawn to a method of color coding a specimen container.

Group III, claim(s) 43, drawn to a method of operating a medical clinic.

Group IV, claim(s) 50-51, drawn to a method of processing a specimen from a patient.

If group I is elected, claim 44 must be re-written so it is not dependent upon a non-elected claim.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of a body, a lid, and an indicator band has not been found to be a contribution over the prior art (from IDS, Stevens et al. (US 2003/0206831), figure 1).
